

Havant and South Downs College

Interiors scheme to unify the two college campus receptions.

Project Title Reception interiors
Client Havant and South Downs College
Completion September 2018
Contract Value Undisclosed

In 2017 Havant Sixth Form College and South Downs College in Waterlooville, merged to become Havant & South Downs College (HSDC), a multi-campus college providing a varied range of high quality education and training to young people and adults across South East Hampshire and West Sussex.

ArchitecturePLB were commissioned to design a unifying interiors scheme for both campus receptions based on their striking new brand identity. The spaces have been designed for a variety of uses including in-dependant learning and student support. Works were called out during the summer holidays to minimise disruption to the campus.

Following this project ArchitecturePLB were appointed to create a new student hub at the Havant Campus transforming a utilitarian space into a varied learning and social environment.
